SUPERINTENDENT EVALUATION TOOL UPDATE

The committee reviewed the current superintendent evaluation tool and the information that was received from the IASB. After reviewing the information, the committee felt that the district's current tool is too lengthy and does not do a satisfactory job of evaluating the position. They also discussed the possibility of dividing the current tool into sections for revising and then meeting again to construct the updated tool.

The committee agreed that the current evaluation tool should be paired down and that the new tool should be created according to the IASB evaluation template.
